January 10, 2006

Dear Eric Rogers,

Since our first meeting last year when we applied for the not for profit status, I knew I was in good hands. Your courteous and efficient staff put our minds at ease with your knowledge. You informed us up front what we needed to do. We took your advice, and today we are reaping the benefits.

Already our Foundation has averted an IRS fine of \$10,000.00. Your staff represented us and overturned the IRS decision. We are now listed on the IRS Website in the not for profit area. We have been getting inquiries on how people can donate.

Our first contact in your office was Alice Walsh. She handled us with kid gloves. We appreciate her hard work on our behalf. Another person that needs to be commended is Frank. He did our taxes and helped us avert the IRS Penalty, to this we are grateful. Last but not least, meeting Eric Rogers was inspirational to say the least.

We, here at the Fire Family Transport Foundation, look forward to our Executive Board Meeting at your office. Our Foundation takes care of NYC Firefighters and their families who are injured or ill. It's good to know someone is taking care of our financial needs. We look forward to a long stay with you.

Thanks for helping us to become solvent.

Sincerely yours,

Bill Schillinger

SEC'Y FDNY FIRE FAMILY TRANSPORT FDN.
